## TRACE

## SHAPE

An Orthotist or Technician highly skilled in shaping metal KAFO uprights is required to fabricate the Perfect Combination.

## FABRICATE

# FABRICATE A CUSTOM KAFO!

## (Just 5 Components + ToeOFF or BlueROCKER)

NOTE: Different sizes of the components can be combined to accommodate individual patient needs.

### 1 JOINTSWITH UPRIGHTS

Item No.	Size
28780 0000	One Size

### 2 TIBIA CONNECTOR

Generally, select the same size as the ToeOFF or BlueROCKER. However, the next smaller size will “snug” the wings of the ToeOFF or BlueROCKER closer to the leg for the extra small calf, and the next larger size may better accommodate a larger calf.

Item No.	Size
28784 0011	Small
28784 0012	Medium
28784 0013	Large/X-Large

### 3 KNEE CONTROL COMPONENT WITH POPLITEAL INTERFACE

Take a M-L (knee width) measurement.

Item No.	Size	Medial-Lateral
28782 0011	Small	2 3/4 - 4 1/4 in
28782 0012	Medium	3 3/4 - 5 1/4 in
28782 0013	Large	5 - 6 1/4 in.

### 4 THIGH CUFF

Take a circumferential measurement at height where thigh cuff is to be located, however, make certain it is NOT LESS than 4” (10 cm) above the tibial plateau. Take a M-L measurement at same height.

Item No. Left	Item No. Right	Size	Circumference	M - L
28781 1011	28781 2011	Small	11 3/4 - 15 3/4 in	4 1/4 - 6 in

Lightweight, Low Profile,  
Functional Orthotic Solution

... for the management of genu-recurvatum  
accompanied with drop foot.

- Uprights are easily attached to anatomically shaped thigh cuff that comfortably grasps the femur for stable fixation.
- Quick connect/release buckles easily attach the adjustable Knee Control Popliteal Interface.
- Tibia Connector is pre-contoured to fit the shape of the anterior plate of the ToeOFF/BlueROCKER, yet is shapeable to accommodate variance in calf circumference and still assure close fit to the anterior plate.

## **Therapy, Reimbursement and Patient Friendly!**

- The thigh cuff/knee control assembly is easily removed from the ToeOFF or BlueROCKER.
- Great for rehab programs where extension control may no longer be required as treatment progresses, eliminates the need for a prescription for a 2nd orthosis!
- Great for patient when relaxing and extension control is not required.
- Easy to don and doff
- Quick release buckles and straps
